NEWBERRY, S. C.

A LYNCHING. On Tuesday night at Denmark, in Barnwell County, a negro by the name of John Peterson was riddled with bullets. He was charged with committing an outrage on a Miss Baxter, a well to do farmer of that section. The evidence was not entirely conclusive that they had the right man, but a number had been arrested and some one had to suffer the death penalty. Peterson protested his innocence to the last and as he was dying. He had been brought to Columbia, or had come of his own accord, and asked protection of the Governor, but Governor Tillman decided to let him be carried back to Denmark that the evidence might be taken before Judge Lynch's court. The evidence was taken and as a result the man has been ushered into eternity. If we remember correctly Governor Tillman wanted the Legislature to give him power to remove sheriffs who would permit prisoners in their charge to be lynched, and now he sends a man back to a mob for trial. We do not see how he could have expected other results. It is all right if they have the right man, but as to that there seems to be some doubt, but even then the Governor should have end avored to have given him a regular trial.

Our Bachman Chapel correspondent admits that the statement of The Herald and News that a man could not hold one set of principles and still claim to be a member of another party, whose platform of principles was entirely different. That is the way it seems to us. But he undertakes to excuse Messrs. Latimer, Strait and McLaurin on the ground that Mr. Haskell led an independent movement in 1890 and that General Hampton did not vote. The Herald and News did not endorse nor support the Haskell movement, but that has nothing in the world to do with the

General Hampton went to the polls to vote and he had forgotten his registration certificate and the managers would not let him vote without it. If these gentlemen endorse the principles of the Third party then they are

that is the way our friend of Bachman Chapel sees it for it is the only correct way to look at it. Memorial Day is the 10th of May, which is this year on Wednesday. Great preparations are being made for the opening of the State's great barroom, and the strange part of all this business is that good people who profess to be great advocates of temperance are in favor of the sale of liquor by the State and hope thereby to lessen the burdens of taxation. If that is the result then there must be many buyers and much drinking, otherwise the business will not be a financial success. If it is successful financially where are the benefits to come in in a moral way in the lessening of drunkenness and the miseries and crimes we have heard so much of from advocates of prohibition? Men can buy their pints and half pints and treat and drink as much as ever and if the object of the law is to sell for the profit there is in it, the State will not only be legalizing the business by engaging in it but will have to encourage it. We can't understand the position of a prohibitionist who favors the Dispensary.

It will be a great relief to both readers and editors, for we are heartily sick and tired of the everlasting grind of the political world with all its tricks and such things. It would be interesting to know if Governor Tillman gave President Cleveland the same reasons that he gives the alliance for his opposition to Mr. Donaldson. His main reason, it seems, for opposing Mr. Donaldson, is the fact that he went to Chicago and took an active part in favor of the nomination of Mr Cleveland when the South Carolina Convention had denounced him, and also because Mr. Donaldson as Senator helped to defeat a pet railroad bill of the Governor's. Well, we do not see any good reasons in the Governor's statement to warrant him in asking the President not to appoint him. If he was an original ly in sympathy with Mr. Cleveland

We admit to disappointment in the Governor's statement of his reasons. We expected that he would furnish better reasons if he gave any at all. They seem to us to be rather of a personal nature. But in another column may be found his letter.

South Carolina has a blue law also. The Herald and News stands corrected in the statement made last week. The of the Sabbath. Our attention has been called to it by a member of the Newberry bar, and we copy the law on the subject in full. Here it is:

The foregoing has been the law of not Democrats, and we are glad that this State ever since 1691 and 1712.

The Tax Cases Decided Against the State -The Federal Supreme Court Declares the Seizure of the Railroads' Property Unjustifiable and the Tax Levies Excessive.

Chief Justice Fuller delivered the opinion of the court. After reviewing man. the history of the case, which is fully known to the public, he said that unless the order of commitment was utterly void for want of power, the application of the petitioner must be denied. Continuing he said in substance:

The property in question was in the custody of the Circuit Court in a cause within its jurisdiction and protected by an injunction. The power exercised was to protect the property in the custody of the court. No rule is better settled than that, when a court has appointed a receiver, his possession is the possession of the court, for the benefit of the parties to the suit, and cannot be disturbed without the leave of the turn answer whether the newspaper in the statement made last week. The levy of a tax warrant, like the evy of an ordinary fieri facias, sequestrates the property to answer the exigency of the writ; but property in the Mr. Donaldson to office. ossession of a receiver is already in a sequestration and already held in equitable execution. While the lien for taxes must be recognized and enforced it must be done under the sanction of the court. Such was the aspect of this case, proceeded the Chief Justice. When I asked an explanation I was told that it was the only possible way to defeat the candidacy of an avowed "Third party man," and that Mr. Donaldson had pledged himself not to seek any office, but to devote his energies to building up the Alliance. I was not surprised, however, when two weeks later he entered the field as a candidate for State Senator from vention in May and the State Alliance in July, would reinstate him at home. Self interest rather than patriotism appears to have gov-erned his actions, and as the Alliance has been sidetracked in nearly every other State by self-seekers, and has been seriously injured in this State from the same cause, I could not conscienci-

The Greenville News of a recent issue discusses the Dispensary bill at some length in reply to an article in the The Greenville News of a recent issue Mountaineer. Without bothering their discussion in the least, we want to make a few extracts from this article on the Dispensary. The bill is now an Act and law, it is true, and will be enforced unless upset by the courts, but still we do not believe it a wise law, Donaldson to an office, several County and it may be repealed by the next Alliances passed resolutions asking Legislature. We do not see how any prohibitionist, who wants to do away with liquor on moral grounds can posthe Greenville County Alliance and sibly endorse such legislation, yet some

The News says: "In our view the dispensary is an ingenious combination of all the evils and wrongs of prohibition and the license system. It invades and de-stroys the principle of personal liberty without any of the claim of moral right which makes prohibition respectable. It recognizes and endorses the morality of the liquor business and declares that it is right to sell liquor to everybody (with the exception already fixed by law) for any purpose. At the same time it says the citizens shall not have the profit there is in the business because the State wants it. It proposes to fix the liquor business on communities without giving those communities any control of it. The cities are to do all the policing and feeding and keeping of prisoners made necessary by the sale of liquor, while the State and county take three-fourths of the profits. "It is undemocratic, unamerican It is confiscation of property and banisbment of citizens and invasion of local self government without the ex-

The News further says: "If the dispensary is a success in promoting temperance it will be a failure financially. If it is a success finan-cially it will be a failure in promoting temperance. If it is a failure in promoting temperance and a success financially it will surely diminish the chances for ever obtaining prohibition. How, then, can a prohibitionist sit complacently by and watch the experi-ment tried? If the dispensary is a better scheme for promoting temperance than prohibition is, why not confess frankly that Ben Tillman and John Gary Evans have found a better path to temperance than John B. Govgh, Father Matthew, and all of them, and endorse and support it honestly and frankly? If it be good, but not so good as straight prohibition why not go the direct road to straight prohibition at once without fooling around a side way with the dispensary and taking chances?"

Word comes from Washington that President Cleveland will not take up the South Carolina appointments until after his return from the World's Fair opening. The hungry office seekers will have to wait in patience and then Last spring when delegates were a majority will have of necessity to be elected to the May State convention disappointed. The way of an office a majority will have of necessity to be hunter is not easy and we imagine it is not strewn with roses. If so there are many thorns in the way.
